Career Objective

Computer Science and Engineering student with strong knowledge of Python, Web Development, Artificial Intelligence, and problem solving. Seeking a Software Developer role to build innovative applications while continuously learning modern technologies.

Technical Skills

- **Programming:** C++, Python, HTML5, CSS3, JavaScript
- **Database:** MySQL, OracleSQL
- **Tools:** Git, GitHub, VS Code
- **Core Subjects:** Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems, OOPS
- **Soft Skills:** Teamwork, Communication, Problem Solving, Adaptability

Projects

Language Learning Platform & AI-Powered Translator

HTML5, CSS3, JavaScript, Python, Django, MySQL

- Developed a web-based language learning platform with an integrated AI-powered translator to help users learn and translate multiple languages.
- Built a responsive and interactive user interface using HTML5, CSS3, and JavaScript.
- Implemented user authentication, quizzes, vocabulary practice, and progress tracking features.
- Developed the backend using Python and Django and used MySQL to store user information and learning progress.

Student Management Portal

HTML5, CSS3, JavaScript, Python, MySQL

- Developed a web-based student management system for managing student records efficiently.
- Implemented features such as student registration, login, profile management, attendance, and academic record management.
- Designed a responsive dashboard for students and administrators with an easy-to-use interface.
- Used Python and MySQL for secure data storage and efficient management of student information.

Education

Government Engineering College, Hassan

2022–2026

Bachelor of Engineering in Computer Science and Engineering

CGPA: 8.5

Certifications

- Python Fundamentals – Infosys Springboard
- Applied Artificial Intelligence – TechSaksham (Microsoft & SAP)
- Earned 8+ certifications in Full Stack Development through NxtWave, covering HTML, CSS, JavaScript, Python, SQL, React.js, Git, and GitHub.

Achievements

- Participated in a 24-hour Hackathon and contributed to AI-based software development.
- Completed 1,500+ hours of hands-on coding, Data Structures & Algorithms, and Full Stack Development on the NxtWave platform.
- Participated in HackSprint 2024, Srishti Team Events, and Tech Trivia 2024.

Additional Information

- **Languages:** English, Kannada
- **Interests:** Artificial Intelligence, Web Development, Software Development
